

## Declaration of Conformity to EU RoHS directive and WEEE directive

RoHS (Restriction of Hazardous Substances) directive
Directive n° 2011/65/UE (RoHS II), directive n° 2015/863/UE (RoHS III) and 2017/2102

The European directive **RoHS** sets restrictions on the use of certain hazardous substances in new electrical and electronic equipment with the aim to protect human health and the environment. It also includes the ecologically correct recovery and disposal of electrical and electronic equipment (EEE) waste.

The below table lists the permitted substance maximum values by weight for steel products used in the manufacturing of electrical and electronic equipment:

- Lead (Pb): 0,1 %
- Mercury (Hg): 0,1 %
- Cadmium (Cd): 0,01 %
- Hexavalent Chromium (Cr VI): 0,1 %
- Polybrominated Biphenyls (PBB): 0,1 %
- Polybrominated Diphenyl Ethers (PBDE): 0,1 %
- Bis(2-Ethylhexyl) phthalate (DEHP): 0,1 %
- Benzyl butyl phthalate (BBP): 0,1 %
- Dibutyl phthalate (DBP): 0,1 %
- Diisobutyl phthalate (DIBP): 0,1 %

The substances mentioned above are not intentionally added during processing, therefore they may be present in our products only as unavoidable impurities, in concentrations however lower than the specific limits established.

## 2. WEEE (Waste Electrical and Electronic Equipment) directive

The European directive 2012/19/EU establishes methods of treatment of waste electrical and electronic equipment (WEEE) therefore it is not directly applicable to the articles of our production. The items we produce do not require any selective treatment, provided for in Annex VII for EEE waste.

All products that are manufactured and placed on the market by O.R.I. MARTIN S.p.A. are in compliance with RoHS II, RoHS III and WEEE directives.

This declaration of conformity is issued under the sole responsibility of O.R.I. MARTIN S.p.A.

Brescia, 24/03/2021

O.R.I. MARTIN S.p.A.

Mr. Andrea Bonomi Health & Safety Manager
